

BRYNT NODEWORKS

NODE MANUFACTURING

◆ PORTFOLIO FACT SHEET

Capability Fact Sheet

Low-code flow orchestration for the plant floor

◆ Capabilities

What we do.

Brynt Nodeworks gives engineers a low-code, node-based way to wire up the plant floor, with an open runtime and a growing marketplace of nodes.

CATEGORY	HEADQUARTERS	SAHOMA STAKE	VALUATION
Node Manufacturing	Kuala Lumpur, MY	Controlling	\$640M

◆ **Visual flow editor**

Build integrations and logic without heavy code.

◆ **Node marketplace**

Reuse and share community and partner nodes.

◆ **Edge and server**

Run flows at the edge or centrally.

◆ **Node runtime**

Execute thousands of flows reliably.

◆ **Protocol support**

Connect to industrial protocols and APIs.

◆ **Open SDK**

Build custom nodes for any system.

◆ MARKETS

Integrators and engineers automating data flows across the plant.
