

SAHOMA
CONTROLWARE

◆ SAHOMA CONTROLWARE

Capability Fact Sheet

Open-architecture industrial software and integration

CATEGORY	Industrial Software & Integration
HEADQUARTERS	Zürich
REVENUE	€340M
PART OF	Sahoma Technologies Group

◆ Capabilities

What we do.

◆ **SCADA modernization**

Migration from legacy SCADA to open platforms, with accelerators that cut cutover risk and time.

◆ **Unified namespace**

MQTT and Sparkplug B architectures that make plant data a first-class, vendor-neutral asset.

◆ **Systems integration**

Controls, telemetry, and edge-to-cloud delivery across energy and manufacturing.

◆ **MES and OEE**

Production, performance, and quality visibility built on standard, supportable tooling.

◆ **Alarm management**

ISA-18.2 aligned alarm rationalization and lifecycle management.

◆ **Standards and security**

ISA-95 and IEC 62443 aligned by default, not as an afterthought.

◆ SECTORS

Oil and gas, midstream, manufacturing, and critical infrastructure operators that need open, supportable systems they own.
