

TALVORA EDGE
EDGE ANALYTICS

◆ PORTFOLIO FACT SHEET

Capability Fact Sheet

Real-time analytics and inference at the edge

◆ Capabilities

What we do.

Talvora Edge runs analytics and machine learning where data is born, delivering real-time insight on constrained hardware at the plant.

CATEGORY	HEADQUARTERS	SAHOMA STAKE	VALUATION
Edge Analytics	Tokyo, JP	Majority	\$920M

◆ **Edge runtime**

A lightweight runtime for analytics and inference.

◆ **Stream processing**

Real-time analytics on high-rate signals.

◆ **Fleet management**

Deploy and update edge nodes at scale.

◆ **On-device ML**

Run and accelerate models near the process.

◆ **Store and forward**

Resilient operation across intermittent links.

◆ **Hardware support**

Broad support for industrial edge devices.

◆ MARKETS

Remote, latency-sensitive, or bandwidth-constrained industrial sites.
